Transition of care

Undergoing treatment for a serious illness or condition and have to switch doctors? If you're new to Cigna Healthcare and your current provider is outside of our network, you may be eligible to continue seeing your doctor for a limited period of time and have your care covered at the in-network level under your plan's Transition of Care (TOC) benefit.

To learn more about TOC and/or apply for this benefit, complete the **TOC form** and contact Cigna Healthcare as soon as possible at **800.790.3086**.

It's easy to manage and pay claims.

- Opt in to **automatic claims** and have Cigna Healthcare automatically pay your portion of eligible medical and prescription drug expenses using your MRA and/or HCSA funds.
- Elect the debit card option during annual enrollment and use your MRA and/or HCSA debit card to make payments right at the provider's office.
- Check balances and pay claims online.

Understanding your EOB

When a claim is filed for medical care you've received, an explanation of benefits (EOB) like the one shown below will be posted on **myCigna.com**. EOBs from Cigna Healthcare are easy to understand and summarize the costs associated with your medical care, so you can quickly see:

1. What expenses were submitted.
2. What's been paid by your plan and how much was paid by your MRA or HCSA, if you have one.
3. The balance you may still owe after Cigna Healthcare and your MRA/HCSA payments have been made.
Quick tip: When you receive a bill from your doctor, you can check the amount you are being billed against the balance shown on your EOB.
4. Your savings – the amount you saved by visiting an in-network provider or facility.

Terms to know

Copay

A fixed amount that you pay for a covered health care service, usually when you receive the service. The amount can vary by the type of covered health care service.

Coinsurance

After you've reached your deductible, you and your plan share some of your medical costs. The portion of covered expenses you are responsible for is called coinsurance.

Deductible

A flat dollar amount you must pay out of your own pocket before your plan begins to pay for certain covered services.

Out-of-pocket maximum

The total amount you will pay out of your own pocket, which includes deductible, copay, and coinsurance amounts before your plan's copay or coinsurance percentage no longer applies. Once you meet this maximum, your plan then pays 100% of the "Maximum Reimbursable Charges," or negotiated fees for covered services.

Place of service

Your plan pays based on where you receive services. For example, for hospital stays, your coverage is paid at the inpatient level.

Know before you go

Unless it's a life-threatening emergency, you have options when it comes to receiving care. When you can't get to your doctor, virtual doctor visits and convenience or urgent care centers are cost-saving alternatives.
