

HEALTH SAVINGS ACCOUNT (HSA)

Save now — and for your future

If you're enrolled in an HSA-eligible health plan, such as a high-deductible health plan (HDHP), you can use an HSA to pay your required deductible with pretax funds.

With an HSA, you may be able to contribute up to the IRS annual limits.* If you are 55 or older, there is an extra catch-up contribution that you can make each year.

Check HSA eligibility

You're eligible if you're enrolled in a qualified plan, such as a high-deductible health plan, with a few exceptions. They include:

- Medicare or TriCare coverage
- A general-purpose health care flexible spending account (FSA) or health reimbursement arrangement (HRA)
- Veterans Affairs medical benefits used in the last three months, unless the hospital care or medical services were for a service-connected disability
- Someone claiming you as a dependent on their tax return

Use your HSA to save

Adding an HSA to your health plan can help grow your savings after meeting immediate health care expenses.

→ Triple tax benefit

Your contributions are tax-free, and remain completely tax-free when used for qualified health care expenses.

→ Invest tax-free

You can invest your HSA funds in an investment account, where your money may grow tax-free.**

→ Take it with you

Your HSA isn't tied to an employer, health plan, or retirement. If you have an HSA elsewhere, you can transfer the balance to your new one. And your unused funds roll over from year to year.
